UNDERSTATED CHARISMA

A collection with a wild soul and classical-looking background, it comes in an unusual selection of colors, ranging from warm shades and more neutral ones to cooler colors so as to fit in with a wide variety of different settings.

ESSENCE OF NATURE

THE OPULENCE OF MARBLE

A classic series able to bring an innovative appeal to living spaces of all kinds is the basic definition of our most recent designs. Floors, walls, counter tops, stairs and tables are some of the surfaces that can be brought to life in full splendor with this collection.

SHADES OF ELEGANCE

A series with influences, sinuous veins lend it eye-catching visual appeal and undeniable personality. Elegance and originality are the watchwords with our collection, in a design whose subtle nuances, in cool or warm shades of color, put an end to monotony, transforming living spaces into striking innovative backdrops.

DOUBLE CHARGE COLLECTION

The background features a complex design with overlapping shapes. A large, light beige circle is at the top. Below it, a series of faint, overlapping circles and rectangles create a grid-like pattern. On the left, a curved section shows a blue and brown marbled stone texture. On the right, a larger section shows a grey, cracked stone texture. A solid brown shape is at the bottom right, partially overlapping the grey stone texture.

Gracefully broken veining in dark yet shaded tones is the defining feature of our collection, which extols the beauty of original stone, with its exotic background and bold surface pattern. An invitation to create spaces filled with elegant sophistication that is impossible to resist.
